

## Teaching-Learning Process

The teaching learning method is one of the best student centric method. The methods like experimental learning, participative learning and problem solving learning make strong the teaching learning process. The college adopts different types of teaching learning methods.

The learning experience is upgraded by extensive use of ICT tools. Like ppts, LCD interactive boards, JAM boards by teachers, especially consequent to the covid-19 pandemic and evaluated through mock tests, quiz, webinars, online testing etc. Different games are introduced to motivate students to participate in learning process. Due to pandemic it has been carried out in next year. To be a complete student physical development is highly required besides intellectual development.

Quiz, Talent haunt, ppt. presentation through webinars are organized for exposure of students to show their creativity and hidden talents. Also get the opportunity to interact with resource persons in the webinars. There are provisions of language laboratory, virtual classroom, spoken tutorials for the development in communication skills as well as other skills beyond the syllabus.

Guest lectures on topics relevant to employment skills and organizations employment opportunities are organized by personnel from different career advancement of students.

Project works are organized for final year students under the supervision of guides and resources in each department.
