ILMS

The Central library of the college is known as Madhusudan Library which is situated in the central position of the college in a three floored building. Library building encompasses book selves, reading room, e- resource centre etc. It has a rich collection of books and caters the information need of the users. The library is fully automated with a standard ILMS. So, the entire library housekeeping work is done through computer and manually. Online OPAC is available and users have been using it. Open Access System is introduced in the college. The reading room of the college is the bigger one which can accommodate more than 100 students at a time. Library has a huge collection of e- resources which are used by the students and teachers in the e-resource centre. The library has high speed internet connectivity with WIFI facility. Library developed a digital depository using digital library software of various e-contents like e-book, syllabus, old question papers etc. It also encompasses the resource for visually challenged students. The LAN facility in e resource centre helps the library to share its resource over the network. The reference desk in library actively facilitates the user in case of any query. The library also provide user education programme for newly admitted students.
