STUDENTS' FEEDBACK ANALYSIS 2022-23

FEEDBACK ON	RESPONSE	ANALYSIS
Relevance of the courses in relation to the program		The curriculum is largely seen as aligned with the program's objectives and goals, reflecting a positive perception of course relevance.
Curriculum has a good balance between theory and practical courses		These results suggest that the curriculum is generally well-received, with room for minor improvements in balancing theory and practical components.
Degree of satisfaction with the syllabus of the courses in relation to the expected course outcomes		This indicates a majority of students perceive the syllabus of the courses satisfactorily in relation to its expected outcome.
The curriculum is effective in developing skills required for employability		This overwhelmingly positive feedback suggests that the curriculum is widely seen as successful in equipping students with the skills necessary for employment.
Usage of teaching aids and ICT in the class by faculty to facilitate teaching.		The combined positive ratings indicate a favourable perception of faculty's use of these tools to enhance teaching and learning experiences.
Fairness in the assessment processes and timely announcement of results		This indicates a strong satisfaction with both the fairness of assessments and the punctuality of result announcements, reflecting a well-organized and student-friendly approach to evaluation processes.
Opportunities for out of class room learning (seminars, workshop, value added programmes)		There are available avenues for students to engage in meaningful extracurricular learning activities. Overall, this suggests that there's a diverse range of opportunities for students to enhance their education beyond the traditional classroom setting.
